

## June Andersen

June is a professional nature photographer and has her studio in Jervis Bay, NSW, where she teaches digital photography, fine art printing and framing. June's images appear on numerous websites and are extensively used by National Parks Australia.

Her career as an educator in the visual arts profession extends over 25 years and she is highly respected both in Australia and overseas.

For June, this collaboration with Mogo Zoo is the perfect combination - considering her ability to teach, her love of nature and her passion for photography.

# MOGO ZOOm

A THROUGH THE LENS EXPERIENCE

[www.mogozoo.com.au](http://www.mogozoo.com.au)

Mogo Zoo is a privately owned zoo situated 10km south of Batemans Bay in the picturesque and historic gold mining village of Mogo.

We are an organisation committed to the survival of endangered animals and provide world standard facilities for over 200 animals of more than 42 rare and exotic species, including the white lions of Timbavati. Mogo Zoo also boasts the largest collection of primates in any private zoo in Australia.

As an institutional member of ARAZPA, Australasian Regional Association of Zoological Parks and Aquariums, we work closely with all Species Management Programs. We are also actively involved in many global breeding programs.

Mogo Zoo is a valuable tourism asset for the south coast. We attract visitors to the area, specifically to visit our zoo and media interest in our achievements continues to increase.

We aim to involve and to educate the public at large and offer our visitors an intimate, educational zoo experience.

## What makes a great wildlife photograph?

Well, great subjects are essential but so are great photographic techniques.

Mogo Zoo is now offering you an opportunity to take great wildlife photographs. Not only does the zoo have great subjects but it will provide a professional nature photographer to help participants gain a solid understanding of photographic techniques.

You will learn the procedures used by the pros to capture stunning shots. These techniques will prove invaluable in all aspects of your photography.

## Will you get close to the animals?

Mogo Zoo is offering access to areas otherwise closed to zoo visitors—this means an opportunity to utilise purpose built viewing platforms and camera portholes.

Up close and personal photographic experience with some species will also be available.

## A Through The Lens Experience will.....

Be held at Mogo Zoo

Encompass two days

Day 1: Commencing 12noon - zoo closing

Day 2: Commencing 8am - 2pm

## This experience will include.....

Two hour tutorial by nature photographer June Andersen. Topics Include - camera modes, lenses, focusing, shutter speed, depth of field, exposure, composition, file formats and software

Tuition and guidance by June for the entire 2 days

Expert commentary by various zoo keepers who will engage with the group during the 2 days

Photo review at end of Day 2

Course notes

Lunch and morning/afternoon tea on both days

No more than 8 participants

## Participants will.....

Be over 18 years of age

Have their own Digital SLR camera and lenses

Be of a reasonable level of fitness and physical ability to walk the grounds of the zoo carrying camera gear

## Would you like to know more about.....

Course program, dates, costs, availability, registration, zoo location, accommodation near the zoo, skill level required or what to bring:
